

Instructions for Clinic Day

- This clinic will be held Saturday, June 26th beginning at 10 AM with a hard stop at 1 PM. We will cease all vaccinations and medication distribution at 1 PM as that is when the veterinarian leaves the shelter. We recommend getting in line no later than 11 AM to ensure that you are seen before 1 PM. The earlier the better!
- During this clinic, HSH will be providing discounted vaccinations and medications. Dogs **MUST BE** present in order for medications to be distributed or vaccines to be administered. Medications will not be distributed if the animal described in the registration form is not present. HSH is only able to sell medications that are weight appropriate for the pet that you describe in this registration. It is your responsibility to ensure that the information you provide to us is accurate. We are unable to provide medications that are not weight appropriate based on the information you provide in this registration (ex. a larger Nexgard pill to split between two animals). There are no exceptions to this rule. If your pet's weight at the time of pick up does not visibly resemble the information provided in this form, HSH will be unable to distribute any medication and your purchase will be considered a donation to the shelter. There are no refunds, exchanges, or reschedules available to those who do not complete this form with accurate information.
- Clients purchasing Heartworm medication **MUST** present HSH staff with a printed copy of a negative heartworm test that was performed within 12 months (if regularly on HW prevention/haven't skipped doses) or within 14 days (if have skipped doses) in order to pick up the medication. HSH staff is unable to distribute medication without proof of negative heartworm status. Without proof, medication will be considered a donation to the shelter. If you are needing to have your pet heartworm tested, please call HSH for recommendations for local veterinarians.
- Your submission and registration is only valid for the animal described in the form you submitted. HSH is unable to provide services for pets that were not pre-registered. HSH is unable to provide services to a different pet in place of one that was unable to attend.
- All dogs must be wearing a leash (regardless of size) and held in the inside portion of the car. We are unable to assist clients whose pets are held outside of the car (for example, in the bed of a truck).
- This will be a drive-thru clinic with the entrance on the 77 Sunshine Strip side of the building. To get in line, please enter Markowsky Avenue from 77 Sunshine Strip and follow the line through to the building. There will be no admittance from the Commerce side of the building. Clients only purchasing medication will be required to drive-thru as usual and will be distributed their medications at a separate station.
- To protect the health and safety of our staff and the community, we require that anyone coming to the clinic wear a mask covering their nose and mouth.
- The Humane Society of Harlingen is not able to offer refunds, reschedules, or exchanges of any kind, for any reason.
